

To whom it may concern:I am writing to request that you do not expand the service of the LPFM in any way that would allow them to take priority over the FM translator service in existence today. My family listens to K-love radio which uses this FM traslator service and we would be greatly effected by the lack of this type of service provided by K-love. There is so much that is negative in this world and that does not uplift people in our community the thought of taking away one of the few ways we can make a difference in the world is unheard of. I strongly believe that K-love operates for the public interest by supporting wholesome values and has a positive and encouraging impact on the community. I believe in this type of service so strongly I also support the listen supported service. My belief is that you also would allow those of us who use this type of service the ability to have this service continue especially in the times we live in something positive goes a long way. Please do not replace the FM translator services that myself, family members and people of my community, state and country depend on to make a positive difference in a negative world by giving priority to these LPFM stations. There are so few positive impacts I know you will not take this one away from the American people. Thank you for your time in this matter and for reading my comment. God bless!
